

Agilent 8560 E-Series Spectrum Analyzers

Data Sheet

8560E 30 Hz to 2.9 GHz

8561E 30 Hz to 6.5 GHz

8562E 30 Hz to 13.2 GHz

8563E 30 Hz to 26.5 GHz

8564E 30 Hz to 40 GHz

8565E 30 Hz to 50 GHz

Unless noted, all specifications describe the instruments' warranted performance under the following conditions: 5-minute warm-up from ambient conditions, autocoupled controls, digital display, IF ADJ ON, REF LVL CAL adjusted, SECOND IF OUTPUT and 1ST LO OUTPUT terminated in 50 Ω . After a 30-minute warm-up, and over a temperature range of 20 $^{\circ}\text{C}$ to 30 $^{\circ}\text{C}$, the preselector does not have to

be peaked at each signal of interest; under these conditions factory preselector peak values are sufficient to meet all specifications. Typical performance is nonwarranted. Supplemental characteristics are denoted by "nominal" and "approximately"; these constitute nonwarranted functional performance information derived during the design process and are not tested on a continuing basis.

TG feedthrough ¹	
300 kHz to 1 MHz	-95 dBm
1 MHz to 2.7 GHz	-115 dBm
2.7 GHz to 2.9 GHz	-110 dBm

Dynamic range²

300 kHz to 1 MHz	96 dB
1 MHz to 2.7 GHz	116 dB
2.7 to 2.9 GHz	111 dB
Power sweep	10 dB range, 0.1 dB resolution

Inputs/outputs

RF output (front panel) (nominal)	Type-N female, 50 Ω
Maximum safe reverse level	+30 dBm, ± 30 Vdc

External ALC input (rear panel)

BNC female, use with
negative detector

Environmental specifications, Agilent 8560 E-series

Per MIL-T-28800, type III, class 3³, style C

Calibration interval

8560E, 8561E, 8562E, 8563E	2 years
8564E, 8565E	1 year

Warm-up time

5-minutes in ambient
conditions

Temperature

-10 °C to +55 °C (oper-
ating); -51 °C to +71 °C
(not operating)

Humidity

95% @ 40 °C for 5 days

Rain resistance

Drip-proof at 16 liters/
hour/sq. ft.

Altitude

15,000 ft. (operating),
50,000 ft. (non-
operating)

Pulse shock (half sine)

30 g for 11 ms duration

Transit drop

8-inch drop on six
faces and eight
corners

Electromagnetic compatibility

Conducted and radiated
interference in
compliance with
CISPR Pub. 11 (1990).
Meets Mil-STD-461C,
part 2, with certain
exceptions.

Power requirements

115 VAC operation:
90 to 140 V rms,
3.2 A rms max,
47 to 440 Hz
230 VAC operation:
180 to 250 V rms,
1.8 A rms max,
47 to 66 Hz

Maximum power dissipation

8560E, 8561E, 8562E, 8563E	180 W
8564E, 8565E	260 W

Audible noise (nominal)

<5.0 Bels power at
room temp (ISO DP7779)

Dimensions (w/o handle, cover)

337 mm W x 187 mm H
x 461 mm D

Weight (nominal)

8560E, 8561E, 8562E, 8563E	20 kg (44 lbs)
8564E, 8565E	21 kg (46 lbs)

1. Leakage measured with maximum power into 50 Ω and with 50 Ω on RF input
2. Difference between maximum power output and tracking generator feedthrough
3. 8564E, 8565E: Class 5

Agilent Technologies' Test and Measurement Support, Services, and Assistance

Agilent Technologies aims to maximize the value you receive, while minimizing your risk and problems. We strive to ensure that you get the test and measurement capabilities you paid for and obtain the support you need. Our extensive support resources and services can help you choose the right Agilent products for your applications and apply them successfully. Every instrument and system we sell has a global warranty. Support is available for at least five years beyond the production life of the product. Two concepts underlie Agilent's overall support policy: "Our Promise" and "Your Advantage."

Our Promise

"Our Promise" means your Agilent test and measurement equipment will meet its advertised performance and functionality. When you are choosing new equipment, we will help you with product information, including realistic performance specifications and practical recommendations from experienced test engineers. When you use Agilent equipment, we can verify that it works properly, help with product operation, and provide basic measurement assistance for the use of specified capabilities, at no extra cost upon request. Many self-help tools are available.

Your Advantage

"Your Advantage" means that Agilent offers a wide range of additional expert test and measurement services, which you can purchase according to your unique technical and business needs. Solve problems efficiently and gain a competitive edge by contracting with us for calibration, extra-cost upgrades, out-of-warranty repairs, and on-site education and training, as well as design, system integration, project management, and other professional services. Experienced Agilent engineers and technicians worldwide can help you maximize your productivity, optimize the return on investment of your Agilent instruments and systems, and obtain dependable measurement accuracy for the life of those products.

For more assistance with your test and measurement needs go to:
